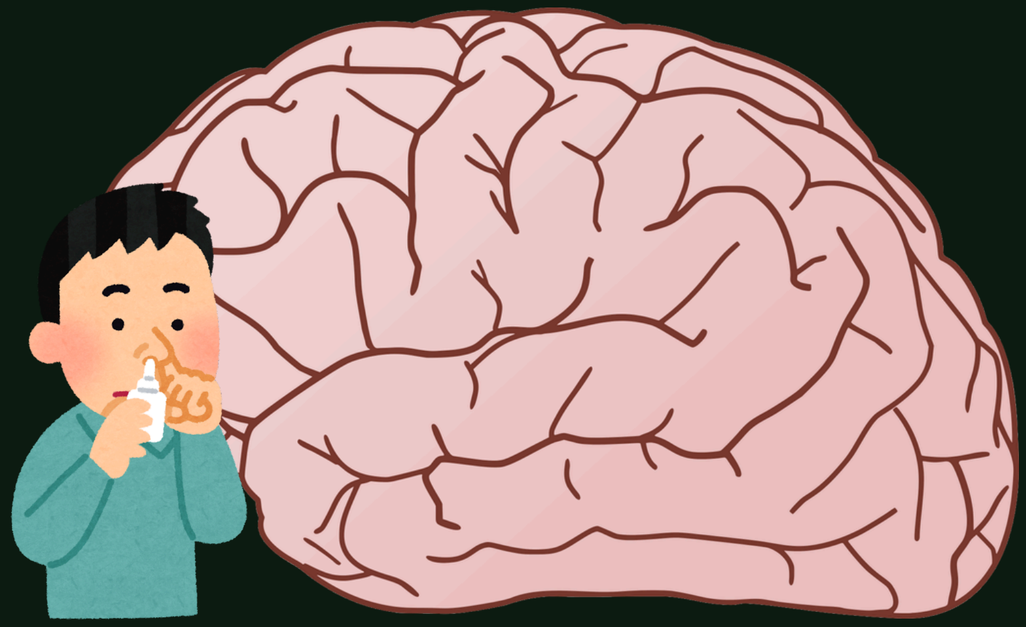
Imitrex® Nasal Spray 20mg

Fast-Acting Prescription Treatment for Acute Migraine

Introduction

- Contains Sumatriptan 20mg, a selective serotonin (5-HT1) receptor agonist.
- Designed for the acute treatment of migraine attacks with or without aura.
- Convenient nasal spray formulation for rapid absorption.
- Ideal for patients who experience nausea or difficulty swallowing tablets during migraine attacks.



Key Features & Benefits

- ✔️ Fast-acting nasal delivery for quicker symptom relief
- ✔️ Helps relieve migraine pain and associated symptoms
- ✔️ Effective for migraines with or without aura
- ✔️ Convenient, single-dose nasal spray
- ✔️ Suitable when oral medications are difficult to take
- ✔️ Clinically proven active ingredient: Sumatriptan

How It Works

1

Sumatriptan works by:

- Stimulating serotonin (5-HT1B/1D) receptors.
- Narrowing dilated blood vessels associated with migraine.
- Reducing inflammation around cranial nerves.
- Blocking pain signals responsible for migraine symptoms.

2

May help relieve:

- Severe headache
- Nausea
- Sensitivity to light (Photophobia)
- Sensitivity to sound (Phonophobia)
